the world of silicone

U L T R A P U R E

OVERMOLDED TRI-CLAMP ENDS

Platinum cured, biomedical grade
silicone

**For Pharmaceutical and
Biotech Applications**

3/4" TC MINI

DN 20 TC

1½" TC

- No leaks associated with barb-type fittings
- Offers consistent interior dimensions for maximum flow rates
- Reduces end-user assembly times—arrives ready to install
- Extremely flexible
- Gamma irradiated supply available

- Cleanroom manufactured (ISO 7 running)
- Full lot traceability
- Validation test portfolios available upon request
- Smooth inner bore eliminates entrapment
- Low shear for cell culture and other sensitive media

Sterilization

Gamma irradiation up to 50kGY, autoclavable

Standard Tubing

AVIPURE® avintos, Sani-Tech® Saint Gobain, AdvantaSil® AdvantaPure, HelixMark® / PharmaFocus®
Freudenberg Medical
